

The Pharmacy Technology Program

The Pharmacy Technology Program requirements have changed; new courses and required prerequisites need to be met before receiving a Certificate or Degree in the Pharmacy Technology Program. If you have received credit for all three 1st semester courses (PHT 020, PHT 030, and PHT 031) it will be honored. Therefore, you can register for the new sequences of second semester courses PHT 070, PHT 072, PHT074. If you have only taken one of the courses from the first set of courses as mentioned above (PHT 020, PHT 030, and PHT 031), then you will be required to meet all prerequisite's required for addition to 1st semester courses PHT 060, PHT 062, or PHT 064.

Beginning Fall Semester, 2013, the first semester courses in Pharmacy Technology will have new prerequisites, BIOL 155 and MATH 090.

- **BIOL 155** (or BIOL 250 & 251 or BIOL 260 & 261) will be a prerequisite for both the **Pharmacology** course (PHT 062) and the **Pharmacy Systems I** (PHT 060) course (formerly **Intro to Pharmacy Technology**.)
- **MATH 090**- Completion of MATH 090 or higher is required for **Pharmacy Calculations** (PHT 064) and is prerequisite or co requisite for **Pharmacy Systems I** (PHT 060)
