WHAT YOU NEED TO KNOW ABOUT A CAREER IN ENGINEERING

with Andres Ruiz

Applications Engineer, XD Innovations

Tuesday, February 25
4-5 pm
PS 199

What is engineering? Why am I even taking all of these science classes?
What will this even get me in the future?

Please join us to hear Andres' answers to these questions and more on his journey to a career path in engineering!

Andres is an experienced engineer with a demonstrated history of working in the automotive industry. He has worked with such companies as XD Innovation, Faraday Future and Canoo. Andres holds not one but three degrees from SBVC in physics, mathematics and biological and physical sciences. He went on to earn a degree in mechanical engineering from UC Irvine in 2016.

MEET A VETERINARIAN with Dr. Janet Troxel

*Doctor of Veterinary Medicine,
East Valley Pet Hospital, Redlands*

**Friday, March 6
12:00-1:30 pm
HLS 134**

Dr. Janet Troxel is a local veterinarian at East Valley Pet Hospital in Redlands, where she works as a general practitioner for canine & feline patients. She starts her workday meeting clients for office visits/ pet examinations, while working in emergencies & surgeries as they present. A typical day involves interpreting physical exam findings & histories /presenting complaints in order to determine the most likely diagnosis, and in many cases may also involve interpretation of radiographs, cytology, bloodwork chemistries/ hematology, and ultrasound as needed.

Please come meet Dr. Troxel at this guest presentation seminar to find out more about veterinary medicine, hear about what it is like to work in this field, and be able to ask questions to a local veterinarian.
