

GPA for Dual Enrollment

The background of the slide is a blue-tinted photograph of a university campus. In the foreground, there is a large, dark sphere with a white 'V' logo. In the background, a large, multi-story building with a prominent clock tower is visible. The clock tower has a clock face and is surrounded by trees and a lawn.

A Review

- According to Ed. Code 76002(b) Admission may be limited based on:
 - Age,
 - Grade level
 - Assessment instruments, methods, or procedures.

In the Catalog....

“All high school students wishing to enroll in transfer-level courses (courses numbered 100-299) must be in their junior or senior year, with an academic GPA of 2.0, and have high passing grades in courses similar to those they wish to take at SBVC.”

“High school students wishing to enroll in vocational courses may be in grades 9-12, with an academic GPA of 2.0, and have passing grades in courses similar to those they wish to take at SBVC.”

Recommended Replacement

- SBVC is committed to providing high-quality dual enrollment to high school students. To be eligible for dual enrollment, high school students must demonstrate that they are prepared for the rigor of college courses through one of the following methods:
 - Successful completion of a student development course selected with the guidance of an SBVC Counselor.
 - Demonstrated academic success. In order to meet this criteria, students must have a total weighted high-school GPA of 2.0 or greater and have been successful in similar courses.
- In addition, dual enrollment students must complete a mid-semester check in with an SBVC Counselor. Students who fail to fulfill this requirement will be limited to a maximum of one (1) course per semester for the following semester.
