VPI Report	
New Business	AUTO Discussion – All of the Auto courses are at Technical Review. We would like to get some clarification on how the department would like to move forward. Are you definitely moving forward in separating out the lecture and lab? When the students find out their lab is online, students are unwilling to continue on with the course. The department feels as if they should still move forward with these changes. These will not be effective until Fall 2022, the department is willing to look to the future to make these changes as we are unsure of the future. The department will need to relaunch the certificates and degrees with the new changes. Is this best for the students? If there was not a pandemic, would we still make these changes? Because of the pandemic we are making the changes for students to allow them back on campus. We would like to give the students the opportunity to take the lab online. This discussion will be tabled pending updates from the department after they meet with Vanessa Thomas.
