

25 October 2024, Full Task Force Recommendations for SBVC functions

The group collectively recommends the following:

- *Continue the current F'24 campus committees and their membership into Spring 2025.*
- *Allow flexibility to campus committees to select meeting times for Spring 2025 if they meet the current membership needs while respecting district-level meeting schedules.*

Recommendations Rationale:

- > Mid-year changes are more likely to create disruption to committee tasks and discussions that usually start in the fall.*
- > Committee membership traditionally begins in Fall, aligning with faculty onboarding and orientation into committee tasks and roles.*
- > Most faculty teaching schedules are established annually; thus, teaching schedules are already coordinated with committee commitments.*
