

Wolverine Cal-GETC Expo

Event Overview Presentation — March 31

A recap of our student engagement event designed to connect Wolverine community members with Cal-GETC and general education resources, pre-registration support, and faculty guidance.

Location: B-100

General Education for All.

Meet faculty and counselors at the Wolverine Cal-GETC Expo & explore GE options, get your questions answered, and pre-register for classes aligned with your academic and transfer goals.

Event at a Glance

150+

Students Served

Total students who attended and engaged with the Expo on March 31.

74

Pre-Registration Assisted

Students who received hands-on pre-registration support from faculty and staff.

92%

Very Satisfied

Share of respondents who rated their overall experience as "Very Satisfied."

18

Faculty Present

Faculty members from across various disciplines who participated and supported students at the Expo.

Student Survey Results

Survey responses captured student sentiment across four key dimensions: overall satisfaction, logistics, confidence, and comfort with faculty and staff.

Overall Experience

Confidence in Cal-GETC After the Event

Confidence Level

68 out of 74 respondents (92%) rated the event as Very Satisfied — an exceptional outcome that reflects strong event execution.

Nearly **80% of students** left feeling Confident or Very Confident about their Cal-GETC and general education requirements.

Engagement & Navigation

Two additional survey dimensions measured how students experienced the physical event space and their comfort interacting with faculty and staff at the stations.

Comfort Approaching Faculty & Staff

Navigating Event Stations

Students were asked how easy it was to navigate between the different resource stations throughout the event.

Easy / Smooth

The majority of attendees found the station layout intuitive and easy to navigate with minimal confusion.

77% of students felt comfortable or very comfortable approaching faculty and staff — a strong sign of a welcoming environment.

Neutral

A smaller group reported a neutral experience — neither smooth nor difficult — suggesting room for clearer wayfinding.

Difficult / Challenging

A minority noted difficulty navigating, pointing to opportunities to improve signage or station spacing next year.

Looking Ahead: Improvements for Next Year

Student and staff feedback highlighted several actionable areas to make the next Expo even more impactful. These themes will guide planning for future events.

Better Alignment with Registration Season

Timing the Expo closer to active registration periods would maximize relevance and ensure students can immediately act on the guidance they receive. Scheduling it outside of peak teaching and class hours — or during a designated flex or professional development period — would also increase participation from instructional faculty across disciplines.

Broaden Event Focus

Consider expanding the scope beyond Cal-GETC to include broader academic planning resources, transfer pathways, and counseling touchpoints that serve a wider range of student needs.

Wraparound Support from the Start

Integrate comprehensive support services earlier in the process so students feel guided throughout their planning journey — not just at the event itself.

Bigger Space & More Computer Labs

Securing a larger venue with additional computer access would reduce crowding at stations and allow more students to complete pre-registration tasks on-site.
