The Nursing Department at San Bernardino Valley College offers a sequence of courses leading to an Associate of Science Degree with a major in nursing. This is achieved through two pathways—traditional ADN and LVN to RN. Students learn to function in a variety of healthcare settings, providing safe, quality nursing care for the purpose of maintaining the patient's optimum level of wellness. Learning activities occur on the SBVC campus and in local community healthcare agencies. Graduates are eligible to take the National Council Licensure Examination (NCLEX-RN) to become a Registered Nurse (RN). The program has a reputation for excellence in the community and is approved by the California Board of Registered Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN).
