Sustainability and Energy

Last modified at 10/22/2026 9:20 a.m.

Learn more about our work

We take great pride in our impressive portfolio of sustainable buildings that include 10 LEED-certified structures, with an additional 5 progressing towards certification. As pioneers in sustainable infrastructure, the new Crafton Hills Performing Arts Center is set to be the first LEED Zero structure in our district, while Valley College's Student Services Building is on track to become the inaugural Envision-certified edifice in the entire CCC system. Our commitment to sustainability is further underscored by the recent update of our collaborative Sustainability Plan, encompassing ambitious initiatives tailored to support the long-term sustainability of our District. With a district-wide Zero Net Energy (ZNE) Implementation plan in place, we are dedicated to embracing energy efficiency upgrades and transitioning seamlessly to clean energy and battery storage across all our campuses.
