TOPIC	DISCUSSION			FURTHER ACT	ION	
1. Approval of 5/25 minutes	Ray motions to approve the min					
	Amanda seconds the motion. No	o edits	,			
	no objections, no abstention.					
	Minutes are approved as written					
2. Charge and Composition	Student Services Council					
2. Charge and composition	Membership includes the Dean	9				
	Directors, Managers, Coordinate		d			
	other representatives from vario		ä			
	Student Services areas.					
	Student Services Mission: To provide					
	a system of support services that					
	enhances student success and					
	achievement of educational goals.					
	This goal is the recommending body to					
	student services. Everyone here					
	represents our constituent groups, and					
	it's important that we hear the voices of					
	those constituent groups.					
	The composition is here for review, so if there's someone that we need to add or					
	remove, we can do so.					
	Recommendation to add Jason Alvarez,					
	LaCretia Smith, Marina Serna Pulido,					
	Ayanna Spivey, Aida Gil, and Patrice					
	Hollis to the committee.			<u> </u>		
3. Enrollment Update	The emphasis for the next two y		5			
	to get back to being a middle-siz college. To be a middle-sized co					
	we need to have 10,000 FTES. We are					
	now in the student-centered funding					
	formula regarding our targets wh					
	means we need to get back to 1	0,000	in			
	two years. Our goal for this year	is				
	9,428 FTES. That is a 4% increa	ase fro	m			
	last year.			<u> </u>		

We anticipate we will exceed that number. We believe we will be at 10.200 FTS for the 2023-24 year. Being a medium plus college provides us an additional 1.000,000 dollars.Request data for dual enrollment students.We are at a 12,140 headcount for students.We are at a 12,140 headcount for students.Repress behind dual enrollment or portion the A Repress behind dual enrollment students.12 is full time for financial aid, and 15 units get you out how years.FTES are counted at 15 units per students are being forced my parents or schools and students are taking datases that they are not interested in. We can ask Patty to present on Dual	
enrollment And April can give us a	
sense of A & R's roll.	
Some new Valley Bound students are	
not able to enroll full time due to	
academic probation. I don't think the	
parents have a full understanding of the	
implications that can later impact their	
students. I don't think students are able	
to pick the classes they want and	
they're failing.	
Faculty chairs are supposed to	
communicate to us what the students	
want. We meet once a month to	
determine what classes to offer the	
students.	
People tend to have a harder time with	
classes they don't find interest in, and	
these are kids.	
Yancie has been working in a pilot	
program with student to change a few	
things such as "Academic Probation"	
and how the term is very legal.	
We are trying to figure out how to	
streamline the process.	
What is the difference between Middle	
College and Valley Now? Middle	
College students can take more units	
than a traditional concurrent enrolled.	
The onboarding process for Valley Now	
is terrible. It's something to look at.	
It's important to state something as an	
institution we need to do it. We need to	
be clear on the expectations for the	
student because the students have a	
responsibility. Together we can facilitate	
their educational journey.	
For the students, busically 0.2	
For the students who are below a 2.0	
can we do a pass/no pass or credit/no credit? It used to be a 3.0 to qualify the	
kids. I know we want numbers but	
sometimes that's not good even though	
that's what the state chancellor wants.	
That's a good conversation because it	
doesn't affect their GPA.	
Valley Now classes are after school.	
The problem with classes after school is	
that the classes are open to anyone,	
meaning they can't close it off to high	
school students only, so adults were	
	Page 3 of 5

registering for those classes. So now, they're having class during school so only high school students attend.	
Our main census had been completed that means that 20% of the course has been completed which gives us a sense of how we're doing with our FTES. Census is September 5 th . Dropping classes after census has implications on financial aid. That is why we do not advise students to drop their classes. Full-time students receive full financial aid and once they drop below full-time their financial aid is reduced and if that money has been allocated then they have to pay it back. Although well intentioned, it is important that we do not advise students on dropping classes until they have a full understanding of what that means. That's called "Return to Title IX" which means as an institution we are responsible for and have to give back to the Department of Education.	
If a student completes 60% of the term or course, then they don't have to give it back. Keep in mind this information should not be shared with students.	
It's important for students to understand the full implications of dropping and not dropping. In some cases, students can drop classes without it affecting their SAP. It just depends on the amount of units they have completed or haven't completed. We are obligated that to the DOE.	
I know financial aid is busy and counseling is busy, but I believe they might be able to see a counselor before they someone in financial aid. Are the counselors trained in understanding that process so they can get some thoughts? No. Academic counselors are not trained.	
Students are always advised to see their financial aid specialist for answers because we don't know where students are in the process and where they stand.	
Financial aid looks at student progress and records different than academic counselors do. So, there is a disconnect between the two.	

	That would be a good discussion for financial aid explain implications.	
	Our students need to be informed when they make that decision and students are not informed and there doesn't seem to be an effort to inform them.	
	Students that need to make split decisions or else and it doesn't seem student-centered.	
	Financial aid is nuanced. Student cases can drastically differ.	
	What is the FA response time? We try to respond within a day or two. Can it go longer, yes.	
	FA does not turn anyone away even at the end of day. We typically get a surge at the end of the day.	
4. Opening Week	We served over 1,000 students at our welcome tables. Students were provided information, direction, coffee, and donuts. Great job!	
5. Student Services Highlights		
6. Area/Dept. Updates	Black to School Night August 29 th , 5-8 p.m. in B100	
	A&R in collaboration with EOPS will have open registration labs starting August 29 th to September 15 th 3-6 p.m.	
7. Other Items	To help our enrollment numbers, we have asked marketing to raffle off a mac, iPhone, and iPad. Our numbers are not where we need them to be.	
	Thank you everyone for your efforts.	
	QR codes should be made available for students to access information on our website.	
8. Adjourn – Next Meeting: September 28, 2023
