

SBVC 2018FA Zero Textbook Cost Sections

These course sections exclusively use digital or other instructional materials that are free of charge to students and may have a low cost option for print versions for students who prefer this format. Please note there may still be other non-textbook mandatory costs associated with some of these sections (e.g. scantrons, scientific calculators, laboratory materials and/or supplies, etc.). Under some circumstances, faculty may have to adjust selection of instructional materials and this can affect student costs. It may also be necessary to replace instructors scheduled to teach sections. Replacement faculty have academic freedom to choose instructional materials regardless of costs and are not obligated to use free course materials selected by previous instructor. These lists might be updated throughout the registration period. For additional information please contact faculty assigned to teach ZTC sections or division deans.

Term	Section Name	Course Title	Name
