Workshop	Format	Hours	Objectives
EXTENDING THE CLASSROOM WITH TECHNOLOGY			
Extending the Classroom with Technology: Doceri: Compose/Record/Present with the iPad	Campus	1	Doceri is an app that turns your iPad 2 or later into an interactive whiteboard, remote computer controller, and screen recorder. In this workshop, you will learn how to use the iPad to create hand-drawn graphics with customized backgrounds, record drawings, narrate drawings, and export videos. You will also learn how to connect the iPad to a computer for wireless control, presentation, and recording.
Extending the Classroom with Technology: Creating Wordpress Websites	Campus	1	Learn how to create and manage a wordpress site for professional or personal use.
Extending the Classroom with Technology: Resources to Flip the Classroom	Campus	1	Overview of using on-campus and external resources to develop original content that you can share with your students and use in a flipped classroom environment. We will take a look at: Camtasia Relay, Edustream.org, Itunes U, CCC Confer
Extending the Classroom with Technology: Teaching with the iPad	Campus	1	Overview of mobile applications instructors can use as part of their teaching strategy. We will take a look at: Bb mobile learn, Prezi, Poll Everywhere, Evernote, Doceri
Extending the Classroom with Technology: Synchronous Communication Tools	Campus	1	Overview of some chat, audio/video-conferencing, and web-conferencing tools that can be used to facilitate synchronous communication. We will take a look at: Skype, CCC Confer, AIM
